

Superintendent Operations Control – Minerals

- **Opportunity to lead a team and continue establishing what best practice looks like in an established operating area.**
- **Exciting role requiring creativity, innovation and critical problem solving**

About the role

We are looking for a Superintendent Operations Control - Minerals to join the Rio Tinto Kennecott Minerals Integration team to provide leadership and growth opportunities for our Control Room Coordinators and Specialists, along with streamlining performance with all value-stream customers (Mine, Crushing & Conveying, and Smelter).

This role is a great opportunity to be a part of the Minerals Integration leadership team, demonstrate your ability to lead a diverse team of control room personnel at two different locations.

As the Superintendent, you will lead a team across both the mine and the concentrator including Technology Engineers and Senior Control Room Coordinators. You will work with teams of professionals from all aspects of the value stream including Execution, Integration, Asset Management, and corporate support teams in order to ensure optimized delivery of the production plan. Reporting to the Manager of Minerals Integration you will be involved with the following:

- Oversee safety improvements in the control room systems.
- Set strategic plan for control room improvements and system upgrades.
- Support development opportunities for individuals in your direct hierarchy.
- Manage the financial budget of the group.
- Drive innovation and technological advances as a primary owner of data collection at the mine.
- Along with the Superintendents in Execution and Asset Management, provide input to the weekly and monthly plans, and understand the quarterly forecast targets and required actions.
- Lead business strategy capital projects that involve control room environment and improvements.
- Demonstrate excellent performance on KPIs set to performance targets across both the mine and concentrator

About you

- Strong leadership and people development skills.
- Capability managing multiple variable environments.
- Developed analytical skills and technical competencies.
- Demonstrated ability to communicate effectively with stakeholders at all levels.
- Proven track record of change management from inception to implementation.
- Familiarity with computer software (Microsoft Office Suite, SAP, Database architecture etc).
- Operational experience at a major mining, concentrating, smelting, or refining operation, or strong operational logistics experience
- Financial budgeting and project management experience

It will also be beneficial if you have:

- Modular, DeltaV or other fixed plant software experience
- Experience managing operating systems
- Experience with Vendor management.
- Bachelor's degree or equivalent

Where you will be working

Rio Tinto Kennecott is a fully integrated mining operation located just outside Salt Lake City, Utah, US. Kennecott is a wholly owned subsidiary of Rio Tinto. For more than 110 years, Kennecott has been mining and processing minerals from the rich orebody of the Bingham Canyon Mine. Kennecott is a strong economic driver and strives to be a valuable community partner through strategic partnerships, charitable giving and sustainable development practices.

About us

As pioneers in mining and metals, we produce materials essential to human progress.

Our long history is filled with firsts. We've developed some of the world's largest and best quality mines and operations, and our 47,000 people work in around 35 countries across six continents. Aluminium, copper, diamonds, and industrial minerals, iron ore and uranium: our materials make up the world around us. You'll find them in smartphones, planes, cars, hospitals and throughout your home appliances.

Creating an inclusive and diverse workforce

We are a diverse team of talented, enthusiastic individuals who foster a culture of inclusion. No matter how they may differ, our people share one thing in common. It's a belief that work is more rewarding when we are accepted and valued for our differences, not judged by them. We all have something to contribute, and it's this contribution that makes for a great organization and fulfilling career.

Apply today if you want to work with the latest technology and innovation, in an environment where we challenge you to drive positive change.

Please note, in order to be successfully considered for this role you **must** complete all pre-screening questions.
